**NEW**  
AT SAUNTON

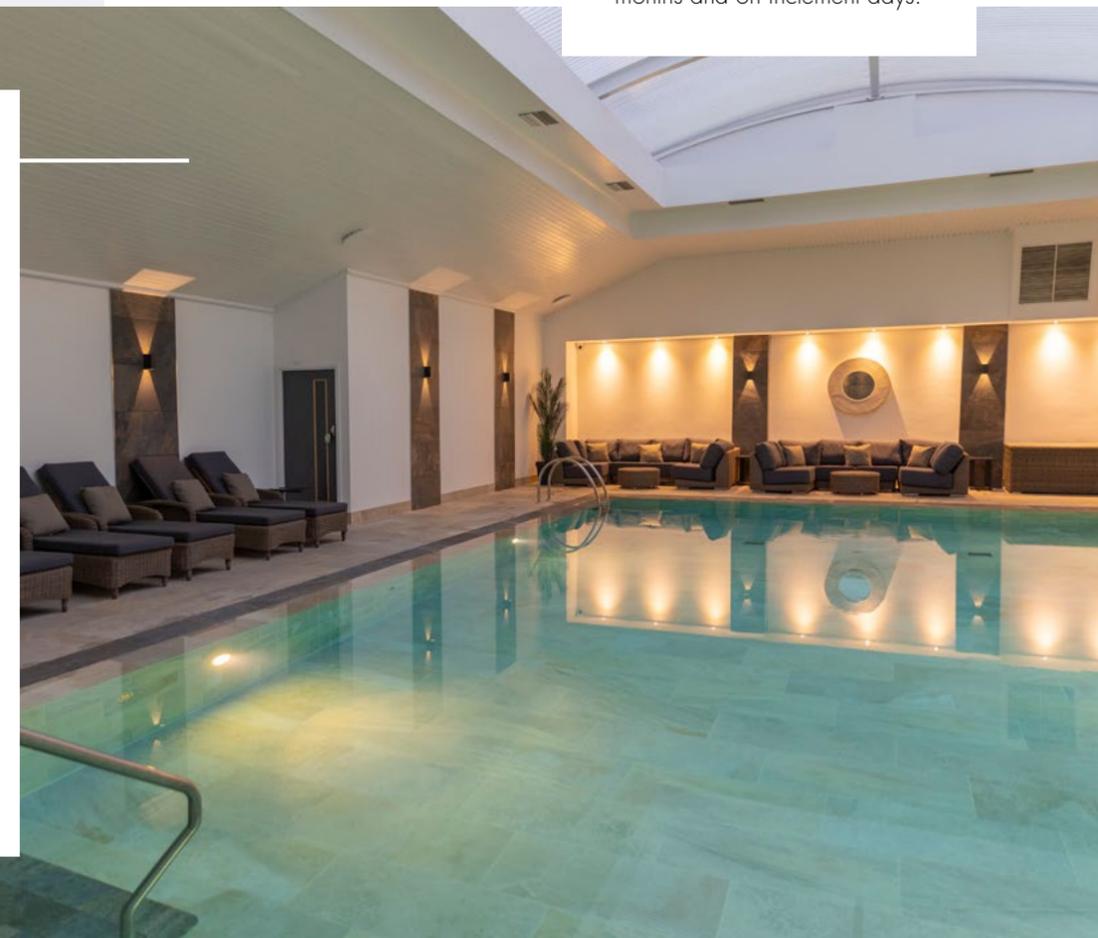

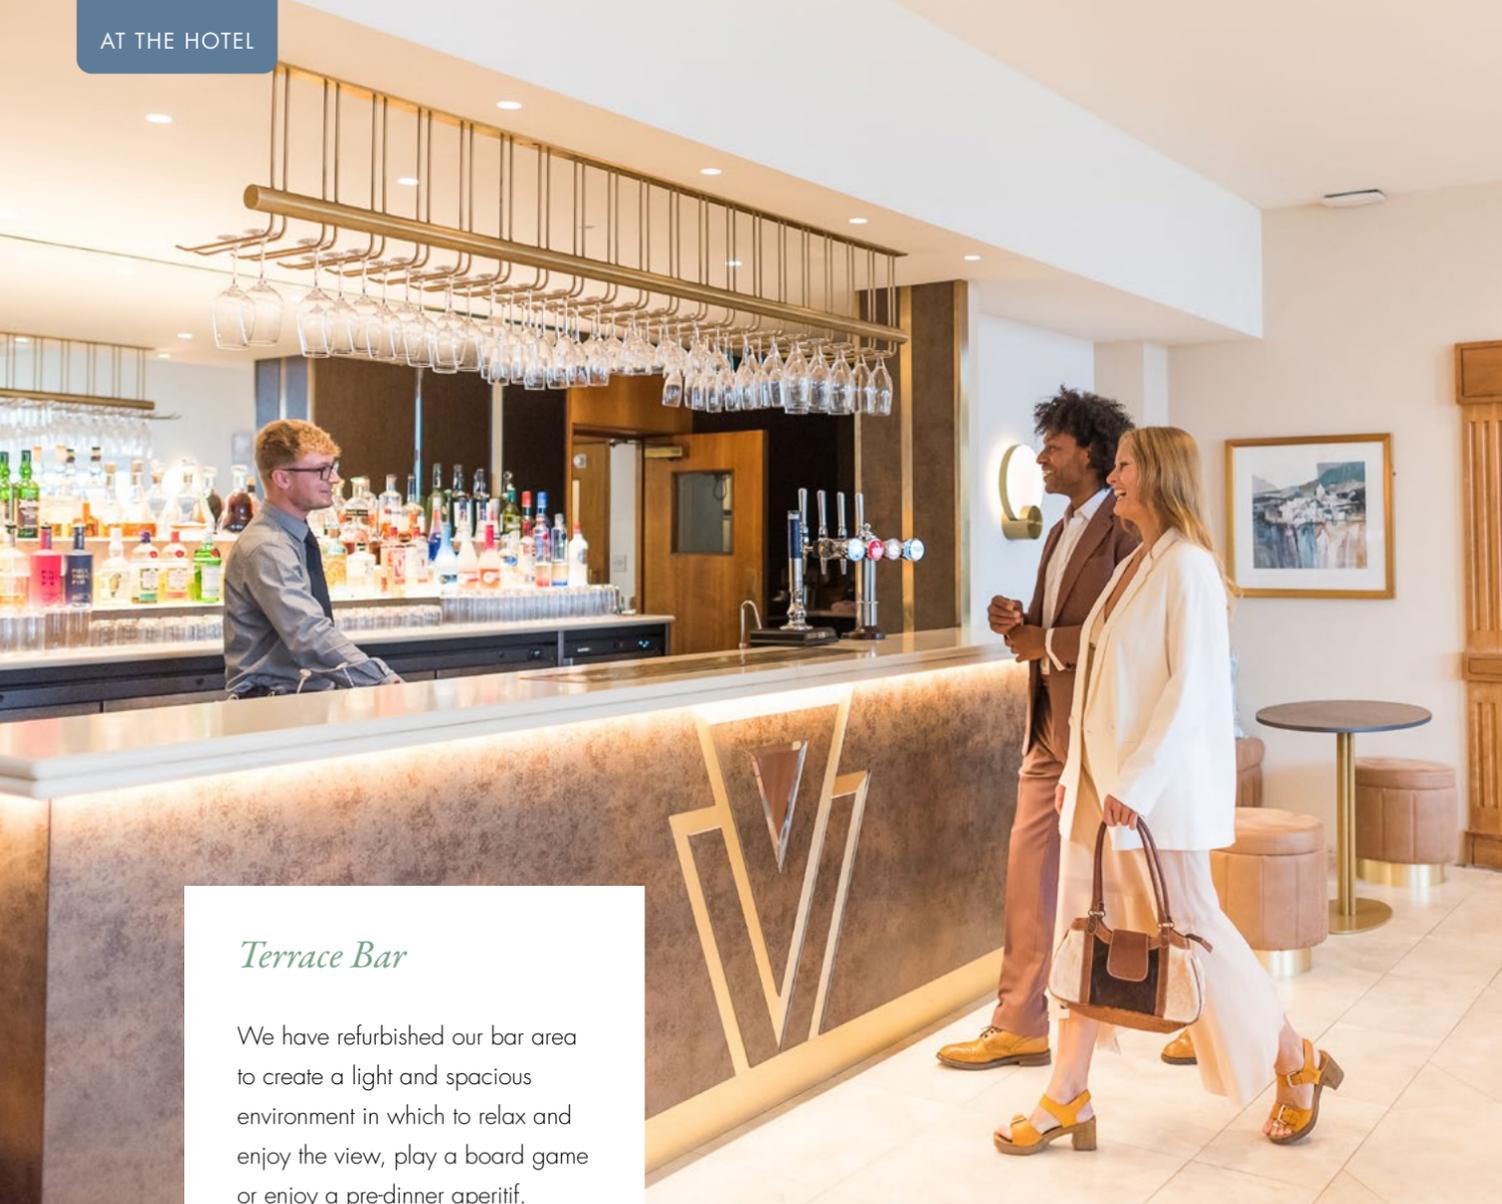

*Source Spa*

Having completed renovation works throughout 2022, our state-of-the-art Source Spa now includes a fitness and yoga studio with a waiting lounge. The large, light and airy space, with its mirrored walls and great sound system, hosts all of our fitness and wellbeing classes during the cooler months and on inclement days.

*Indoor Pool*

The indoor swimming pool has also undergone major renovations which has helped establish a new benchmark for North Devon spas. Heated to a balmy 28°C, our indoor pool is perfect for some leisurely laps to reinvigorate or soothe away the night before, or simply settle into a poolside lounge with a magazine or good book and leave the others to it.

### Terrace Bar

We have refurbished our bar area to create a light and spacious environment in which to relax and enjoy the view, play a board game or enjoy a pre-dinner aperitif.

Our interior design team wanted to give the room a fresh, modern feel while still presenting the Art Deco style of the hotel. Blue and tan soft furnishings, marble finishings, abstract artwork and a stylish bar has given the room a whole new feel but remained in-keeping with the traditional character that's so distinctive to Saunton Sands Hotel.

Sink into one of the cosy sofas and let us tempt you with our imaginative selection of fine wines, top-quality beers and cocktails.

# THERE'S NOWHERE QUITE LIKE SOURCE *spa*

Inspired by the natural playground surrounding the hotel, our oceanfront spa harnesses the power of nature to soothe, restore, invigorate and nourish body and mind.

Source Spa celebrates both the inside and the outside. Imagine how good it would feel to start the day with an outdoor yoga class on the lawn or in our new studio. Move to the sound of the rolling surf and calling gulls while overlooking miles of pristine North Devon Biosphere. Then spend the day sauntering between swims in our indoor and outdoor pools and sessions in the gym and Thermal Suite.

Enhance your stay with a nourishing spa treatment, followed by a spell of relaxation on the rooftop terrace under a warm blanket. Add decadent treats, like an afternoon tea, to your plans and pepper the day with sandy-toed strolls and invigorating jumps through the surf for the ultimate feel-good experience.

## DÉESSE PRO LIGHT THERAPY MASK

Rejuvenate and treat problematic skin with a Déesse Pro Light Therapy Mask session. It can be added to any facial.

## DOUBLE THE DELIGHT

For a unique shared experience, our double treatment room overlooks miles of golden sands, dunes and the sea. Most Source treatments can be shared with a partner.

Carefully created to blend results-driven treatments with holistic wellness, we use a handpicked portfolio of products that complement our range of spa treatments, including our very own cruelty-free Source Spa Collection. For excellent anti-ageing treatments, a selection of iS Clinical facials will give you that A-list glow.

# TAKE A THERMAL JOURNEY

A true thermal journey is designed to take you, step by step, through a range of spa facilities to elevate and cool your body's temperature. Let us guide you through your thermal journey ...

## 1. Prepare & relax

First, be sure to remove all jewellery. Begin the experience by showering in warm water to open skin pores, cleansing your body in our luxurious contrast tropical rain shower with waterfall and massage jets.

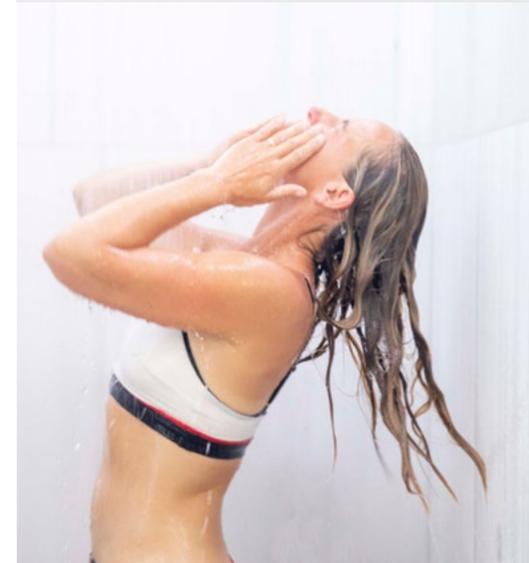

Next, take in the gorgeous views across Saunton Beach and beyond in the beach-view marine vitality pool. It's filled with mineral-rich Dead Sea salt water and uses powerful massage jets to work the whole body. This eliminates muscular tension, improves circulation and provides a mini-hydrotherapy experience alongside many other health and beauty benefits.

## 2. Refresh & cleanse

Refresh with a cleansing shower: start with warm water as cold exposure causes skin pores to close and could potentially trap pool chemicals. Follow with a cold shower to bring your body temperature down. Some experts claim the principle is 3-1. You should be in the hot water three times longer than the cold water, for example: 90

seconds hot, 30 seconds cold. It's equally important to hydrate with a glass of water throughout your journey.

Once cleansed, heat things up in the salt inhalation steam room, where the gentle heat releases pure salt vapour into the air as you relax in serene surroundings. Breathe deeply and slowly to inhale the healing saline atmosphere which aids breathing and relaxation. Then hydrate.

## 3. Warm up & cool down

Cool off under the cascading water of the contrast showers, then elevate your temperature in our hottest room, the Finnish aroma sauna, to enjoy the combination of dry heat and essential oils.

To finish, take inspiration from the Finnish tradition of rolling in the snow post-sauna: rapidly cool off by rubbing crushed ice into the skin from our ice fountain. Alternatively, take a cold shower. Hydrate with another glass of water.

Jump back in the vitality pool after a cold shower for pure relaxation – just remember to shower off before cooling down. Leave feeling refreshed and invigorated.

.....

Why not combine your marine thermal journey with a spa treatment that will complement the experience? Then, post-treatment, head to our rooftop relaxation room and sun deck to allow your body and mind to drift into sheer relaxation.

# Health AND FITNESS

You don't have to forgo your fitness and wellbeing regime while staying with us, as we have plenty to keep you moving.

Join our daily exercise classes run by friendly and knowledgeable instructors. Play a game of tennis (equipment can be hired free of charge) or sweat it out in our gym which is decked out with functional equipment, weights and interactive cardio machines. Two large pools and the ocean also offer abundant opportunities for a swim. And everything is included in the price of your stay.

## Why not try...

### COLD-WATER SWIMMING ?

The outdoor pool is open all year round and unheated from October to May. You may have heard of Wim Hof who has popularised the health benefits of cold-water immersion in recent years, although it's been practised by many cultures around the world for centuries. Adapting to the cold is believed to reduce stressors, boost the immune system, burn fat, reduce inflammation, increase hormone levels, improve sleep quality and provide a surge of feelgood chemicals in the brain.

*Keen to go the extra mile?  
Personal training is available*

*Come and experience...*

### YIN YOGA

### MOON PRACTICE HATHA YOGA

Leave worries and stresses behind using movement, breathwork and meditation to reconnect with the body, calm the mind and feel more serene and stable.

### FULL BODY WORKOUT

**MEDITATION** Step away from the constant flow of distractions, demands and needs that occupy the mind. Meditation can help you calm your nervous system, reduce stress and anxiety, increase self-awareness and feel present.

**PILATES** Stretch the body with strength and control in this low-impact conditioning class with an emphasis on core strength. Suitable for all levels.

# A world-class ENVIRONMENT

We've DIVERTED **98%**  
of our waste from LANDFILL

## UNESCO BIOSPHERE RESERVE

We're situated in one of just seven UNESCO Biosphere Reserves in the UK. This encompasses the UK's first Marine Reserve that stretches to – and beyond – Lundy Island. The hotel directly overlooks Braunton Burrows, which is the core of the Biosphere. The sand-dune system is the second largest in the UK and home to a large number of rare plants and animals. We are proud to be a Biosphere Business Partner, and our Environmental Team drives initiatives to make sure we are always doing our very best to protect this special place.

## WHAT WE'RE DOING

### ENERGY AND WATER SAVINGS

In order to protect the environment we take all food waste and convert it into electricity. We've also reduced our total energy use and Co<sup>2</sup> emissions by 25% since 2006. That's an estimated 20,000 tonnes so far.

We use low-energy LED lights, which reduces the amount of electricity used by each bulb by 95% and we heat the hotel using renewable solar and biomass energy, which accounts for 70% of our energy.

We've also installed Toilet Hippos to conserve water in the loo cisterns, and all our outdoor showers are solar powered.

### PROVIDING LOCAL KNOWLEDGE

We actively promote opportunities for our guests to become involved in and understand local cultural and conservation practices.

### SOURCING LOCALLY

We support local farmers to cut unnecessary food miles.

### SUSTAINABLE BUSINESS NETWORK

We engage and trade with as many local businesses as possible which operate in an environmentally and socially responsible manner.

### CRUELTY-FREE SPA PRODUCTS

Our Source Spa Collection is naturally derived, clean skincare which won't pollute the environment.

### HOW YOU CAN GET INVOLVED

Do a #2MinuteBeachClean during your sandy-toed stroll or beach day. Litter pickers are available at Guest Relations, just take a bag or fill your pockets.

# THE EPITOME OF GOLFING *tradition*

Thanks to its sterling reputation as one of the oldest and best courses in the UK, playing a round on Saunton's East or West courses is a tradition every keen golfer has on their wishlist.

Saunton Golf Club offers two championship 18-hole courses which, thanks to the sandy soil of Braunton Burrows and the mild coastal climate, can be played throughout the year.

Braunton Burrows has hosted golf since 1897, although Herbert Fowler (designer of Walton Heath, The Berkshire and Delamere Forest) didn't create the East course until the 1920s. The very oldest course in the UK – Royal North Devon – is also just a short drive away in Northam.

Tradition meets contemporary comfort for golfers who stay at the hotel, thanks to the rejuvenating joys of Source Spa and Wellness. What could be better after a day out in the fresh air and pristine environment than the delights of the sauna, steam room and massage – followed by a good dinner?

For prices please see our website [sauntonsands.co.uk/golf](https://sauntonsands.co.uk/golf) or scan the QR code here.
